

Accreditation and Recognition panel member

Name: Ausaf Khan

Team member

Job title: Advanced Pharmacist – Neurosciences, Liverpool University Hospitals NHS Foundation Trust

Ausaf is currently an Advanced Pharmacist in Neuroscience at Liverpool University Hospitals where he provides an advanced clinical pharmacy service to the Walton centre, a specialist tertiary trust providing neurology, neurosurgery, spinal and pain management services to a diverse population of patients. Throughout his role Ausaf participates in daily multidisciplinary ward rounds where he provides specialist input into the care of patients, whilst also contributing to the pharmacy prescribing service for patients admitted for neurosurgery.

Prior to becoming an Advanced Pharmacist in Neurosciences, Ausaf was a specialist pharmacist in Cardiology and Respiratory medicine within an NHS trust in greater Manchester. During this time Ausaf was able to work with specialist teams across the two divisions to influence prescribing practices whilst also co-ordinating the clinical pharmacy service provided across the cardiology and respiratory wards. Ausaf also completed his Postgraduate diploma in Clinical Pharmacy and Independent prescribing qualification whilst working as a specialist pharmacist.

Ausaf has had a diverse pharmacy career, he has worked within primary care where ran long-term disease management and polypharmacy clinics in addition to previously working within COVID-19 vaccination clinics, community pharmacy and also the Birmingham 2022 commonwealth games.
