

## **Accreditation and Recognition panel member**

**Name: Charles Odiase**

**Team member**

**Job title: Consultant Pharmacist Primary Care and Diabetes (Lead Clinical Pharmacist)  
Kings Langley and Longmeadow Surgeries, Hertfordshire UK**

Charles is a Consultant Pharmacist Primary Care and Diabetes at the Kings Langley and Longmeadow surgeries, and as a member of the Hertfordshire and West Essex (HWE) ICB diabetes transformation group. Over the years, he worked and gained experiences across the hospital, community, CCG PMOT, and General Practice pharmacy sectors. He is an active non-medical prescriber with both extensive generalist and specialist experiences. Charles is also a NHSE/HEE The Centre for Advancing Practice multi-professional framework credentialled advanced clinical practitioner, with master's degrees in Diabetes, Clinical pharmacy (hospital), and a Post-Graduate Diploma in advanced practice in Urgent Primary Care. He is one of a few alumni pharmacist of the prestigious UK-wide Diabetes UK clinical champions two-year leadership and management development programme delivered at the Ashridge Hult International Business School.

He is one of a few alumni pharmacist of the prestigious UK-wide Diabetes UK clinical champions two-year leadership and management development programme delivered at the Ashridge Hult International Business School. He has offered his expertise as a member of multidisciplinary diabetes expert advisory groups such as IDEAL, chair of the diabetes UK Primary Care Course events, member of the Diabetes UK professional conference organising committee, and the first ever pharmacist chair of the internationally recognised Diabetes UK professional conference.

He was a visiting Lecturer at the University of Hertfordshire, and an active course support tutor and workshop facilitator for Education for Health Diabetes, Asthma, COPD, and cardiovascular disease subjects. He was a PCN education lead for Allied Healthcare Professionals under the HWE training HUB, and Consultant Pharmacist Primary Care and Diabetes (Lead Clinical Pharmacist) for the Dacorum GP federation. Other involvements in pharmacy and IP education have been as a hospital postgrad diploma tutor, general practice pharmacist trainee supervisor, non-medical prescribing practice support tutor and DPP, and volunteered undergraduate and postgraduate mentor.

Charles believes in improving inequalities and driving peer mentorship and support strategies, especially amongst trainees. In his spare time, he is a foodie and enjoys trying new cuisine, and observing cultural history.
