

Accreditation and Recognition panel member

Name: Dr Tania Webb

Team member

Job title: Deputy Head of the Leicester School of Pharmacy, De Montfort University

Tania graduated from the University of Wales, College of Cardiff with a BSc (Hons) in Biochemistry in 1989. She obtained her PhD in Molecular Neurobiology from the University of Cambridge in 1994, undertaking her doctoral research at the MRC Centre at Addenbrookes Hospital. Tania then moved to the Royal Free Hospital School of Medicine where her post-doctoral research on purinergic receptors was funded by Astra Zeneca and the Wellcome Trust. In 2000 Tania joined De Montfort University as a Senior Lecturer where she led a BBSRC funded research group that focused on functional properties of P2Y receptors. She joined the Leicester School of Pharmacy in 2003, was promoted to Principal Lecturer in 2005 and to Associate Professor in 2018. Alongside other roles, Tania was programme leader for the MPharm for 7 years and chaired the School of Pharmacy Learning and Teaching Group from 2019-2024.

Tania was appointed as Deputy Head of the Leicester School of Pharmacy at De Montfort University in 2024. In this role she provides academic leadership for all taught programmes in the School aligned to the Faculty's strategic priorities.

Tania continues to contribute to both undergraduate and postgraduate teaching at the Leicester School of Pharmacy in the areas of therapeutics and genomics, and has led modules on personalised healthcare and bioinformatics. With extensive experience of course development, quality assurance and research supervision, Tania has been an external advisor, panel member and external examiner for other HEIs.
